

Town of Charlotte

ESTABLISHED 1762

To: Thompson's Point Leaseholder
From: Nathaniel Bareham, Town Administrator
Re: Permission to Drill On-site Well on a Thompson's Point Leased Lot

The Town of Charlotte hereby authorizes the lessee to drill a well on the lot they presently lease from the Town of Charlotte on Thompson's Point, Lot Number 145. This well must be drilled by a well driller currently licensed by the State of Vermont in accordance with 10 V.S.A § 1395. Prior to drilling, the licensed driller must contact the Thompson's Point Operator, Steve Williams at (802) 324-5307 for instructions as to authorize drilling locations. Once the well is drilled, please arrange for the well driller to submit to the Town Clerk a report including, but not limited to, the name of the lessee, location, depth, and any other reasonable and appropriate information the Town may request.

By signing this letter, the Lessee agrees to bear all costs and expenses associated with installation, maintenance and operation of the well. If any cutting of trees is necessary to facilitate the drilling of the well, pursuant to the terms of your lease with the Town, you must first obtain Town approval for such tree cutting.

Please sign and date this letter on the space provided and return it to the Town Administrator. You are not authorized to commence any work until the Selectboard Chair and Town Administrator sign this letter.
